

# PRINT DATA SHEET

Acrobat 8 (PDF 1.7)  
Recommended software for design creation: Adobe Illustrator

CMYK or greyscales in 8 Bits Channel.  
RGB colors are automatically converted to CMYK

All fonts must be converted to paths or be embedded  
At least 8 mm font height

Minimum resolution in 1:1 format:150 dpi,

Use this color for deep black:  
Backlit: CMYK 75/75/75/100

Do not apply crop, bleed or registration marks

Files are produced as received. If the artwork contains Pantone colors, they must be marked in the file and communicated to us prior to production. Even when Pantone colors are followed, the final appearance may vary due to lighting conditions.

Our team does not make any edits to customer files. If any manipulation or changes are required, the customer assumes full responsibility, and this may result in variations in color and overall appearance.

# BIG LED UP

-  Data format  
1.2" bleed
-  Final format/  
Frame format
-  Safety distance  
1" safety distance  
from the final format

In the case of continuous graphics over several frames, it is essential to create the graphic file as a whole.

Final format/Frame format

Data format incl. 1.2" bleed

**6.6 ft tall**

236.22 x 78.74 inch

237.42 x 79.94 inch

**8 ft tall**

236.22 x 94.49 inch

237.42 x 95.69 inch

**10 ft tall**

236.22 x 117.32 inch

237.42 x 118.52 inch

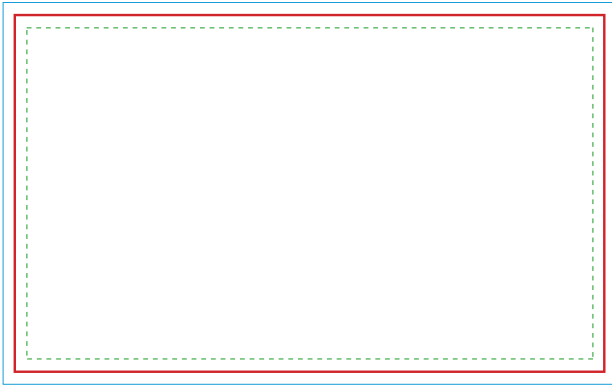

Please note that 4.8" on a side of the design final format will not be visible as it will be covered by the side wall.
